**RELEASE/WAIVER**

Due to your child's specific food allergy, \_\_\_\_\_, the Albany Community After-School Program (CAP) is unable to serve your child's particular food allergy requirements. CAP regrets that we are unable to alter the monthly snack menu in a manner sufficient to meet those requirements.

In the best interest of your child's nutritional requirements, it is necessary that you provide your child's snack when he/she attends the CAP program. Due to rising food allergies specifically related to nuts, CAP has become a nut, tree nut, and seafood free program. It is imperative to remember to not include any nuts or peanut products when providing your child's snack. In addition for our Kinders, please do not include nuts or seafood (i.e., peanut butter, tuna) in your child's lunch.

CAP will make all reasonable efforts to ensure your child is not exposed to allergens at your child's program site. However, despite such reasonable efforts, there remains the possibility of exposure to allergens during the CAP program and, by sending your child to the CAP program, you acknowledge this risk of exposure.

-----

I/We release CAP from all liability and claims that may result from my child being exposed to an allergen while attending the CAP program, provided CAP and its employees have used reasonable care in protecting my child from exposure to foods restricted from my child's diet.
